

MotiveWave Software Introduces Auto Gartley Patterns

TORONTO, ON – July 26, 2011 – MotiveWave Software, an up-and-coming provider of charting analysis and trading software for the individual active trader, just introduced the addition of Auto Gartley Patterns to its MotiveWave trading platform.

MotiveWave is a charting analysis and trading platform that also offers Gartley, Elliott Wave, Fibonacci, and Gann trading strategies. With the release of MotiveWave's Auto Gartley tools, the already advanced manual Gartley tools have been taken to the next level. In MotiveWave, you could always manually plot any of the 20 Gartley components plus all harmonic ratios, but now, with the Auto Gartley features, MotiveWave will automatically fill in the best Gartley or harmonic patterns for you.

The manual Gartley tools are still in MotiveWave for those who like to manually plot Gartley and harmonic patterns, and the new Auto Gartley tools, as with all components in MotiveWave, can still be moved or edited after they have been placed on the charts.

"MotiveWave's charting and trading platform is very easy-to-use whether you're a beginner, a market analyst or a professional discretionary trader," said Tony Lindsay, Founder of MotiveWave Software. "With the addition of Auto Gartley, we believe it will make plotting Gartley and harmonic patterns even easier for our Gartley users," added Lindsay.

Auto Gartley and manual Gartley tools are available in the MotiveWave Ultimate Edition and the 14-Day free trial, or as an add-on Gartley Module to the other MotiveWave Editions.

To get a full access 14-Day free trial of MotiveWave, including the Auto Gartley functionality, visit www.motivewave.com/free_trial.htm.

About MotiveWave Software

Founded in 2010, MotiveWave Software (www.MotiveWave.com) is quickly emerging as a leading developer of easy-to-use high-performance charting and trading software for the individual active trader.
