

MotiveWave Software Partners with OANDA to Offer Their Forex Trading Services

MotiveWave Trading Platform enhances its forex trading services with global forex broker OANDA

TORONTO – September 11, 2014 – MotiveWave Software, a Toronto-based developer of easy-to-use high-performance charting and trading software for the individual trader, is pleased to announce its partnership with OANDA, a global provider of innovative [forex trading](#) services.

OANDA Corporation transformed the business of foreign exchange through an innovative approach to FX trading. OANDA was the first online provider of comprehensive currency exchange information, and today the company's OANDA Exchange Rates data provides benchmark rates for corporations, auditing firms, and global banks.

“As a broker with a strong focus on trading education, an industry-leading platform, and transparent business practices, OANDA and MotiveWave share similar company values to the benefit of all of our clients,” said Tony Lindsay, Founder, MotiveWave Software. “We are proud to be a part of OANDA's partner program and to offer advanced technical traders the power to analyze and interpret massive amounts of market data.”

MotiveWave is a full-featured trading platform that provides advanced charting and market analysis, and is available for Windows and Mac OS X. MotiveWave is currently available in four different editions, designed to meet individual trading needs, experience and budget. MotiveWave can be used to trade any securities that your broker or data service supports. These may include stocks, futures, options, equities and forex.

“Technical analysis is a key component to any forex trading strategy and our partnership with MotiveWave Software provides our clients with added professional analysis tools,” said Trevor Young, Vice President of Product Management, OANDA Corporation. “In addition to providing support for complete Elliott Wave Theory, the MotiveWave platform also offers innovative features such as pattern recognition, advanced scanning, strategy backtesting/optimization and highly advanced alerts.”
